# **Recommended Additional Control(s) Required**

Hazard	Types of Control(s) Required	Person Responsible	Target Date	Date of Completion

### **Hazard Control**

If the hazards cannot be eliminated as close to where the problem is created as possible, reduce the risk of exposure to the hazard by:

### Engineering

Substitution
Redesign of workplace
Isolation/closed processes
Automation/material handling devices
Ventilation (general dilution/local exhaust)
Purchasing criteria (tools/equipment etc.
Storage

Air monitoring

Or a combination of any of the three above

#### Administrative

Policies/practices/procedures
Work/rest schedules
Limiting hours of work
Scheduling/rotation of exposed workers
Wet methods as opposed to dry sanding or sweeping
Training
Organizing and planning work

### Personal Protective Equipment

Eye/face protection
Head protection
Foot protection
Hearing protection
Respiratory protective equipment
Fall protection
Protective clothing/Gloves
